

Noah's Ark Nursery Schools

Illness Procedures for Parents

- Please keep your child at home for a full 48 hour period if suffering from sickness and /or diarrhoea as this can spread through the nursery quickly.
- Please advise the Head Teacher if your child comes into contact with any of the childhood illnesses so that we can pass on the advice to other parents. You may be asked to take your child home if the Head Teacher considers that any of the other children are at risk from an illness your child could pass on.
- Should you or your child unfortunately have head lice or threadworm, please inform the Head Teacher immediately; action can then be taken to ensure the necessary hygiene steps are taken. Please do not be embarrassed – anyone can pick them up! Further advice can be given by the Head Teacher or by contacting your local clinic.
- If a child becomes ill whilst at nursery school, we will make every step possible to contact parents or named contacts, but if this is not possible we will take responsible measures to care for the child.
- If a child sustains a broken or fractured limb, we require the child to be kept away from nursery school for an appropriate period of time following hospital treatment. If we feel the child's safety is compromised on return to nursery we will ask that the child be kept at home for a longer period of time. On return to nursery, we will require written consent that you accept responsibility if further damage is caused to the injured limb.
